

Welcome!

We are so happy to have you in our Philips OneBlade Pro campaign in Australia. In this campaign, you will be testing your new Philips OneBlade Pro device and writing your honest review on The Insiders campaign page.

Let's get started

As you unbox your Philips device, we would like to remind you of your key missions:

1

DRAFT and POST your review on The Insiders campaign page. We will give you helpful tips and feedback.

2

SNAP pictures (and videos) of your experience and share them on the Photocorner.

3

CHECK the blog regularly for additional campaign missions and product information.

4

COMPLETE the End Survey at the end of the campaign to share your final feedback with us.

Don't forget

Participate in our campaign blog and have fun in this incredible experience.

Your review means a lot to us, so if you don't complete your review, we may not select you for future campaigns.

Please don't forget to share the joy with family and friends by inviting them to join us!
