

## **LG GSX961MCCZ & LG GSX960MCCZ**

With a plethora of features on board, these refrigerators will change what you think is possible from a fridge freezer. Boasting the now iconic American-style two-door system with a built-in ice maker, indulge yourself with modern convenience and tons of storage space, perfect for hosting parties and feeding families.

Need to know what you've got in before you pop to the shops? Knock twice and the InstaView will reveal your favourite snacks in an instant, preventing any cold air from being released. LG's Door Cooling system will even allow cold air to be spread more evenly throughout your refrigerator, and cool 35% faster than other systems.

## **LG GSL961PZJV & LG GSL960PZJV**

Powered by LG's robust Inverter Linear Compressor, these refrigerators offer an experience only found with LG's range of refrigerators. Boasting the now iconic American-style two-door system with a built-in ice maker, indulge yourself with modern convenience and a whopping 600L of storage space, perfect for hosting parties and feeding families.

Even with all that extra storage, you won't have to worry about your food spoiling as LG's Door Cooling technology ensures that cold air spreads more evenly throughout your refrigerator, providing better protection for your food at a rate that's 35% faster than the competition.

Plus, with a non-plumbed system, you can place the GSL961PZJV anywhere in your kitchen, keeping your existing décor intact.

In a rush and need something to cool quickly? You can alter your GSL960PZJV fridge freezer's temperature anywhere via your smartphone.

## **LG GSL761MCKV**

With an unbelievable amount of features on board, the LG GSL761MCKV will change what you think is possible from a fridge freezer. Boasting the now iconic American-style two-door system with a built-in ice maker, the refrigerator's non-plumbed set-up means that it can be placed anywhere in your kitchen.

Even with all that extra storage, you won't have to worry about your food spoiling as LG's Moist Balance Crisper can optimise your refrigerator for fruit and veg, keeping food fresh for longer and ensuring better tasting meals as a result.

Plus, if you're in a rush and you need something to cool quickly, you can alter your fridge freezer's temperature anywhere via your smartphone.

## **LG GSL760MCKV**

Powered by LG's robust Inverter Linear Compressor, the GSL760MCKV offers an experience only found with LG's range of refrigerators. Boasting the now iconic American-style two-door system, indulge yourself with modern convenience and a whopping 600L of storage space, perfect for hosting parties and feeding families.

Even with all that extra storage, you won't have to worry about your food spoiling as LG's Moist Balance Crisper provides the optimal environment needed to keep fruit and veg at their best for longer.

Plus, never break a sweat with the GSL760MCKV's plumbed ice-dispenser, offering cold refreshment whenever you need it.

## **LG GBB72MCUFN & LG GBD62PZYFN**

The LG GBB72MCUFN fridge freezer is kitted with LG's bespoke NatureFresh technology, ensuring that produce maintains its freshness for longer, giving you better tasting meals in return. LG Door Cooling allows cold air to be distributed more evenly, while the Inverter Linear Compressor – found only in LG refrigerators – consumes 32% less energy than competing compressors, whilst also emitting 25% less noise.

With a folding shelf built in, you can always adapt the GBB72MCUFN's interior to match your culinary needs. LG ThinQ also lets you tap into the temperature of your refrigerator, straight from you smartphone.
